

Full time employee

SYDNEY CBD

Information & Communication Technology

Opportunity

CDM SYDNEY is searching for a Senior System Engineer/Architect to join its well established yet growing technical team. The ideal candidate would be a technology all-rounder with good business acumen and who is comfortable in front of customers. You must be able to work unsupervised and take the initiative to do what it takes to get a job done.

The primary role will focus on project delivery for CDM's customers, however you will be expected to at times be an escalation point for Level 3 Support. You will also be expected to work closely with the Pre-Sales and Solution team. You will regularly be engaging directly with our customers.

Responsibilities

- Design and delivery of infrastructure projects
- Level 3 remote and onsite support
- Escalation support to other engineers
- Technical Pre-Sales and solution design
- Technical proposal writing & documentation
- Engage with CDM's customers

Experience

Must have

- Australian Citizen and must be able to attain baseline security clearance
- Experience in SOE design and implementation
- Strong knowledge of Virtualisation technologies VMware and Hyper-V
- Experience in Design, Implementation and maintenance of infrastructure solutions
- Excellent customer engagement and documentation skills

Highly Regarded

- Sharepoint Design and Implementation experience
- Storage experience preferably HP with FC, iSCSI, FCoE etc.
- Experience in implementing O365 for mid to large sized environments
- Strong knowledge of technologies such as Microsoft RDS, Citrix XenApp / Xen-Desktop / NetScaler
- Backup implementation experience preferably Veeam
- Experience with cloud architectures - Microsoft Azure, Office 365 and Amazon Web Services (AWS)
- Knowledge of LAN, WAN and Network Security
- Experience with Hyper-covered technologies
- Experience in Citrix VDI and XenApp

Requirements

- Strong Business Acumen
- Must be comfortable in front of customers
- Strong analytical and troubleshooting skills
- Strong documentation skill

- Must be Microsoft certified
- Citrix, VMware certified highly desirable

If you are interested in this role please share your resume to jbrowne@cdm.com.au or contact Justin Browne on (02) 9286 2222 for more information.
